

5G Module FM150-AE

5G NR/LTE/WCDMA

Sub 6GHz

SA & NSA

USB 3.1/PCIe 3.0

Fibocom's first global 5G module FM150-AE is a series of 5G communication modules for Asia/Europe/Australia, which support both 5G SA and NSA network architectures with faster transmission speed, better carrying capacity, and lower network latency. FM150-AE supports the 5G NR Sub6 band, and is compatible with LTE and WCDMA standards, eliminating customers' investment concerns in the initial stage of 5G construction and responding to the commercial demand of rapid landing. The modules provide perfect high-speed experience for customers in the fields of tablet PC, gateway, industrial monitoring, remote medical treatment, UAV, virtual reality and immersive experience (VR and AR).
